All.Can is a multi-stakeholder platform established to create political and public engagement on the need to improve the efficiency in cancer care. To do this, it focuses on what matters most to patients, and makes sure resources are targeted towards achieving these outcomes. All members contribute their time for free to the initiative, and all publications from the group reflect consensus of the members, who hold full editorial control. The All.Can initiative is made possible with financial support from Bristol-Myers Squibb (main sponsor), Amgen, MSD and Johnson & Johnson (sponsors). The secretariat to All.Can is provided by The Health Policy Partnership Ltd.
